

ACCESSORIES

Complete racing exhaust system kit with carbon silencers.

Complete exhaust system in larger diameter stainless steel with carbon race silencers fitted with removable Db killers. The layout replicates that used with the standard system ensuring maximum flow dynamics and further enhanced by the kit-included ECU with race mapping and a high-efficiency air filter.

Carbon race silencer kit

Pair of oval race silencers with carbon sleeves and removable Db killers. Their streamlined and aggressive design maintains continuity with the latest Monster styling. The kit comes with a dedicated ECU and high-efficiency air filter, enhancing engine performance as well as your ride.

Homologated silencer kit in titanium

Made from precious titanium, this pair of homologated silencers reduces weight, enhances the sound and adds to a sophisticated specification. The ECU and high-efficiency air filter supplied in the kit optimises power output while keeping emissions within the EURO3 requirements (homologation valid for EU member countries).

Cross-mounted aluminum steering damper

Fully adjustable cross-mounted aluminium steering damper to enhance front-end stability under extreme conditions.

Low seat

The low seat option reduces seat height by approximately 20mm, ensuring sure-footed confidence when stationary.

Semi-rigid pannier bag kit

A pair of semi-rigid pannier bags, complete with anti-theft retaining system and made from weather and chemical resistant 'Sky' fabric. Offering a capacity of approximately 14 litres each, they feature a useful carrying handle and a water-resistant protective cap.

80s tank side-covers

Personalise your Monster with a pair of customised tank side-covers decorated with 80s graphics.

Top tank covers in carbon fibre

Top (front) and bottom (rear) tank covers in carbon fibre add a high-tech finish to the Monster's tank centre, creating a seamless panel of pure carbon.

Front fender

One-piece carbon front fender adds a high-tech finish.

Single seat cover

Quickly removable single seat cover in carbon fibre adds a sporty look to the rear of the bike.

Rear hugger for single-sided swingarm

Carbon rear hugger, specifically designed for single-sided swingarm.
